Passionfruit Enzyme

pH 2.80-3.40

For skin in need of firming, this Kollaren peptide enzyme creates dermal warming, delivers elastin fibers that improve elasticity of the skin and Collagen I and III that give dermal tissue its strength, resistance and firmness. Passionfruit is a great antioxidant to give the skin a healthy glow.

\$75.00 8 oz

\$46.75 4 oz

Pineapple Enzyme

pH 3.80-4.70

For all skin types, including sensitive. Safe for pregnant clients. Pineapple delivers a natural occurring enzyme, bromelain, which provides a gentle softening and brightening exfoliation. Pineapple is full of Vitamin C, which stimulates collagen synthesis and delivers age correcting antioxidants.

\$71.50 8 oz

\$45.25 4 oz

Raspberry Peach Enzyme

pH 2.62-3.62

For all skin types, including sensitive or rosacea. Safe for pregnant clients. Raspberry contains high levels of antioxidants, which soothes skin irritations and reduces inflammation, while peach softens and is aromatically relaxing. Hibiscus flower (flower power) and pumpkin add the exfoliating properties to this enzyme.

\$65.00 8 oz

\$41.25 4 oz

Coconut/Papaya Enzyme

pH 4.18-4.60

For normal and sensitive skin; dry, rough, and wrinkled skin. Coconut and papaya enzymes dissolve dead skin cells revealing healthy soft skin. The small molecular structure of coconut allows for easy absorption through the skin giving it a soft, smooth texture. Ideal for dry, rough and wrinkled skin. Contains only fruit enzymes for a gentle exfoliation for the most sensitive skin.

\$58.00 8 oz

\$36.50 4 oz

Lemon Zest Enzyme

pH 1.91-2.31

For normal to dry skin with pigmentation. Exfoliate and brighten the skin with the antioxidant and brightening benefits of lemon. Contains 8% arbutin, 6% lactic acid, 3% glycolic acid, and 2% kojic. It promotes deep hydration that protects from environmental damage while relieving the surface signs of aging. Arbutin and kojic provide extreme lightening capabilities.

\$62.00 8 oz (two 4 oz jars) **\$38.50** 4 oz

Pomegranate Enzyme

pH 2.40-2.95

For normal to oily skin, or acneic skin with pigmentation. Pomegranate is a powerful antioxidant which also brightens the skin. Contains 11% lactic, 4% alpha-arbutin, and 2% salicylic. It promotes deep hydration, reduces oiliness and lightens the skin from irregular pigmentation.

\$53.00 8 oz **\$33.00** 4 oz

Cherry Enzyme

pH 3.0-3.5

For normal/combo skin with pigmentation. Contains 9% lactic acid, 5% mandelic acid, 7% arbutin and 3% kojic. It promotes deep hydration that protects from environmental damage while relieving the surface signs of aging. Arbutin and kojic provide lightening capabilities.

\$65.00 8 oz **\$41.25** 4 oz

Pumpkin Orange Enzyme

pH 2.32-2.72

For normal/combo resilient skin. Packed with Vitamins A and C, this enzyme will exfoliate and reduce oil while your client enjoys the wonderful smell of pumpkin and orange. A 15% pumpkin concentration, it dissolves dead skin while orange provides a beautiful glow to the skin. Can cause flaking or peeling.

\$65.00 8 oz **\$41.25** 4 oz

Blueberry Enzyme

pH 2.56-2.96

For all skin types except rosacea and sensitive skin. Blueberries contain potent antioxidants for anti-aging. With 1% glycolic and 1% salicylic, this enzyme provides a nice brightening exfoliation that will minimize pores and leave the skin feeling very soft.

\$65.00 8 oz **\$41.25** 4 oz

Goji Berry Yogurt Mask

For normal to dry skin. Goji Berry helps in rebuilding the skin by stimulating biosynthesis, fibroblast proliferation and by inhibiting MMPs. Anti-aging results can be seen by the reduction of lines and wrinkles in addition to an improvement in the skin's elasticity. Yogurt moisturizes, smooths and stimulates cellular regeneration.

\$82.50 16 oz

\$26.00 4 oz

Strawberry Spearmint Mask

For normal to oily and acneic skin. This is a unique kaolin-based cream mask that absorbs oil and refines pores without hardening on the skin. Strawberry and spearmint are antifungal, antibacterial, and antiseptic and will draw out impurities and toxins.

Golden Honey Nourishing Mask

For all skin types. This hydrating mask contains honey and Royal Epigen P5 to increase regeneration of skin for soft, smooth, hydrated skin. Honey is anti-inflammatory and anti-bacterial. Allantoin and panthenol improve the skin's natural protective barrier and provide significant hydration.

\$82.50 16 oz

\$26.00 4 oz

Cranberry Turnover Peel

pH 3.73

This peel exfoliates and reduces oil with 20% salicylic acid in a creamy cranberry base. It's designed for normal to oily and acneic skin, as well as inflamed and pustular acne.

\$53.00 8 oz

\$33.00 4 oz

30% Glycolic Peel

pH 1.27

Glycolic acid is considered one of the classic exfoliant agents in skincare today. Glycolic acid dissolves the desmosomes that bond cells together to provide a thorough exfoliation. It is designed for closed comedones and keratinized aging skin with fine lines. It also makes an excellent booster to any enzyme.

\$35.00 8 oz

\$22.00 4 oz

20% Lactic Lightening Peel

pH 1.63

Arbutin and kojic acid work with the hydrating properties of lactic for an extreme lightening peel. Add to our Lemon Zest Enzyme for a beautiful lightening facial.

Lemon deep cleans while yucca soothes the skin.

\$5.50 2 oz **\$14.50** 6.4 oz

\$29.00 16 oz/Backbar

Charcoal Clay Cleanser

For normal to oily skin, men and/or teen skin. This cleanser is infused with charcoal and kaolin clay to absorb environmental toxins and sebum, remove impurities, and help prevent clogged pores. It provides deep cleansing, reduces oil, and detoxifies.

\$5.50 2 oz **\$14.50** 6.4 oz
\$29.00 16 oz/Backbar

Glycolic Cleanser

For normal, aging, sun-damaged, oily or acneic skin. This 17% glycolic therapeutic cleanser breaks down oil and encourages cellular turnover to minimize oil and refine pores to reveal fresh, healthy skin. It refines, renews and brightens the skin and will also lessen the appearance of wrinkles. This cleanser pairs well with either the Pomegranate Cleanser or the Green Tea Citrus Cleanser. Not recommended for sensitive skin.

\$6.00 2 oz **\$16.00** 6.4 oz
\$32.00 16 oz/Backbar

Raspberry Refining Cleanser

For oily and/or acneic skin. The raspberry-based cleanser contains 2% salicylic and 2% glycolic which will increase cellular turnover bringing oil and debris to the surface of the skin; salicylic then dries the uplifted oil. Tea tree calms and soothes the skin. It also makes a great back and body wash.

Passionfruit Facial with Kollaren Firming Peptide

Skin Conditions: Skin in need of firming. Not recommended for rosacea, couperose or sensitive skin. Best performed in a series of 6 treatments spaced 1 week apart.

Approximate Cost Per Treatment: \$9.58

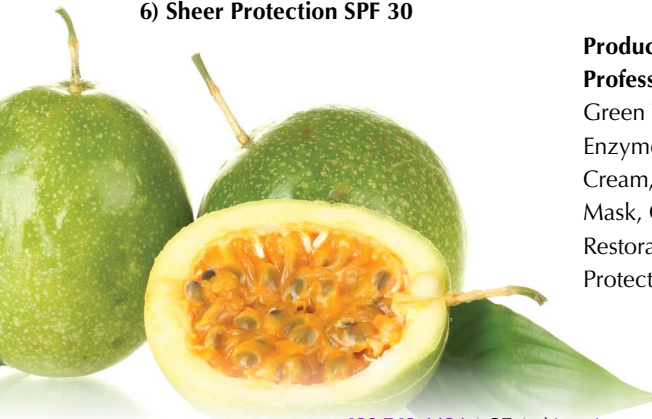

This Passionfruit Enzyme is meant to increase blood circulation and firm the skin. Passionfruit is a natural enzyme, as well as a great antioxidant to give the skin a healthy glow. Kollaren peptide increases resiliency and elasticity in the skin by supporting the dermal tissue strength provided by collagen types I & III.

Professional Facial:

- 1) Cleanse twice with **Green Tea Cleanser**
- 2) Apply **Passionfruit Enzyme** (suggest NO STEAM);
it is normal for the skin to appear red and warm for several hours
- 3) Remove with a warm barber towel or with cool aesthetic wipes
- 4) Extractions
- 5) Apply **Citrus-C Nourishing Cream**
- 6) Apply **Goji Berry Yogurt Mask** or **Seaweed Mask** for 10 minutes
and remove with warm barber towel
- 7) Tone with **Cucumber Toner**
- 8) Moisturize with **Peptide Restoration Moisturizer**
(or appropriate weight moisturizer)
- 9) Protect with **Sheer Protection SPF 30**

The 10% TCA Depigmentation peel is designed for lifting pigmentation and melasma; it is also suitable for acne. This TCA has been buffered with the lightening ingredients of kojic acid, azelaic acid, and arbutin. This is a mild, gentle TCA designed to be used in a 4-peel series over 8 weeks. This peel series is safe for all Fitzpatrick types 1-6.

The series should be done in order and in a timely manner. The client must be on the Skin Script complete homecare regimen at least 1 week prior to the series and during the series. The Glycolic & Retinol Pads are the skin lightening products and should be used twice a day, directly on the pigmentation. Adjust the usage if needed.

The TCA has a tingle factor of approximately 2. This gentle TCA peel is self-neutralizing and takes about 8 hours to be metabolized by the skin. Your client will leave with this peel on their skin. Manage client expectations by establishing that they may not see visible peeling.

Post-Peel Care: After the Lactic and Glycolic peels, the client may continue using the homecare regimen as long as there is no irritation. After the TCA peels, they can expect 3-4 days of flaking; only use the Green Tea Cleanser, Cacteen Balancing Moisturizer and SPF. Once the skin has finished flaking, they may resume use of the Glycolic Cleanser, Retinol Scrub, and Glycolic & Retinol Pads.

Skin Script Online Learning Center

Thank you for choosing us to fulfill your skincare education needs. Our customers are the heart of our business and we truly value the opportunity to serve you. Here at Skin Script, we understand the importance of quality skincare, outstanding customer service, and complimentary education. We believe in empowering aestheticians through education and great skincare and do so with complimentary online education for the licensed aesthetician! To that end, we have developed the Skin Script Learning Center which is a space where you will come to participate in our online curriculum. Please visit this space often to view our new classes.

SkinTensive Two-Day Training

This class is dedicated to the skin care professional who is seeking further knowledge in advanced skin care related topics. Our goal is to help you become a critically thinking aesthetician who treats the root cause of the issue not just the symptoms. Come ready for a fast-paced, intensive, and fun-filled 2-day training where you will rediscover your love and passion for skincare! This advanced “skin-tensive” two-day class is designed to help you bridge the gap of your previous learning and link it to new and exciting information that will open doors to your professional success.

This training includes:

- A review of the layers of the skin and what happens in each layer; treatment considerations that address each layer.
- Cellular mitosis and the creation of bi-layers; do you understand why our oil/water (bi-layers) are so critical to be aligned to prevent trans-epidermal water loss, which results in milia, keratinized skin, acne.
- Melanogenesis and Pigmentation issues; do you understand the difference between melasma and hyperpigmentation; do you have the ability to explain the difference to your clients and set reasonable expectations?
- Fibroblast proliferation; why are we seeing the onset of premature wrinkles in the skin? UV rays are one culprit, but how do we recognize and repair depleted/damaged collagen?
- Causes of each type of acne; why do we have slow-moving sebum within the follicle wall, why do we have papular acne, why do we have pustular acne? Once you understand the reason for the types of acne, you can treat the root cause, not just topically treat the skin.
- Chemistry terms; do you understand your label ingredients?

Skin Care ReBoot *License Required*

Do you hold an Aesthetics or Cosmetology License but have never used it? Did life get in the way of your skincare career aspirations and now you feel like the skincare world has passed you by? Are you confused or unclear about skin histology, exfoliation methods, and peels? This comprehensive hands-on class is devoted to the licensed professional, like you, who wants support in understanding skincare theories. It is a blend of SkinTensive highlights, facial trades, in-depth skin analysis, and connection with other aestheticians to create confidence in the treatment room.

Superficial Peeling Class *License Required*

This hands-on training workshop is designed to help you discover the different types of superficial chemical peels available such as glycolic, lactic, salicylic and TCA. When to use them, their differences, and how they work to produce results. We will explore factors affecting skin health and rejuvenation as well as conducting a comprehensive client history, effective skin analysis, and develop an individualized plan for treatment of aged, acneic and pigmented skin. You will also learn how to incorporate other modalities such as microdermabrasion, dermaplaning, and dermafilting in conjunction with your peel sessions. You will perform and receive a superficial chemical peel if desired.

Product Knowledge Class

Everything you would like to know about Skin Script products and much more. Attendees leave expressing that they grew their overall skincare theories and analysis knowledge.

POLICIES

Chemical Peel Policy

Skin Script Skin Care offers 4 chemical peels for our Pros. 20% Lactic, 30% Glycolic, 20% Salicylic (Cranberry Turnover Peel), and 10% TCA Depigmentation Peel.

To purchase, we require that you acknowledge you have received and will review the Skin Script Training Manual and product protocols prior to performing any product application.

Drop Ship Policy

A drop ship is when an aesthetician or business requests Skin Script to ship product directly to their customer.

It is the Pro's responsibility to charge and collect the full retail price from the customer plus \$7 for shipping, unless the order is over \$49, then complimentary shipping is offered.

When you place the order with Skin Script, you will provide us the customer's name and shipping address. Please use your personal or business credit card. If the card used does not match the account holder, the order will be placed on hold. All orders placed with a card other than the account holder, or a person notated on the account, will be put on hold.

Skin Script will then ship the ordered product directly to the customer. When we ship directly to a Pros customer, we do not include the invoice due to wholesale pricing being listed. We also do not include an order form for the same reason. Due to regulatory laws, the Skin Script enzymes and peels cannot be drop shipped.

Return Policy

If you are not satisfied with a product purchased from Skin Script, it is returnable for credit or for another product. Skin Script must be advised of dissatisfaction of a product within 21 days of original purchase. The product must be returned to Skin Script's office within 2 months of the dissatisfaction for credit or exchange of another product. Returned products must be at least 60% full. You will be responsible for postage or delivery charges of the returned product. Skin Script will deliver the new, exchanged product free of delivery charges.

**To return an item, please call for assistance 480-543-1121,
Monday – Friday from 8:00 a.m. to 5:00 p.m. MST.**

**We do not accept returns on Seasonal Enzymes
and Masks as these items are final sale.**

Web Sales Policy

Skin Script Skin Care should only be purchased from licensed aestheticians and/or approved professional partners. It is to be recommended and used under the direction of a professional.

As a Pro Partner, you will not discount online. Discounting online creates a domino effect of diminishing the value of our line. We believe in upholding our product pricing and value, so our Pros are not competing with each other.

Skin Script Skin Care does not support or engage with mass retail websites such as Amazon.com, Skincarerx.com, Ebay.com, and so on. Due to the product being purchased without direction on how to use the product, we do not want to compromise the guidance provided by our Pros.

Any person or business found to be marketing and selling product online with mass retail websites will not be allowed to purchase from Skin Script Skin Care.

“Find A Pro” - Online Listing

Skin Script Skin Care provides a complimentary listing under “Find A Pro” on our website as a courtesy to aestheticians who actively purchase Skin Script products as outlined below. The Certified Professional/Retailer list is intended to help the end consumer locate aestheticians in their area who either use Skin Script professionally and/or sell Skin Script products.

To qualify as a Skin Script Certified Professional, you must: 1) Hold an active aesthetician license or cosmetology license. Students are not eligible to be listed as a retailer. 2) Meet the qualification thresholds of purchasing at least \$1000 worth of Skin Script Retail, Professional and/or Chemical Peel products in the previous rolling 6-month period. Skin Script reserves the right to remove a Certified Professional listing if you fall below the above listed thresholds. 3) You must have a physical storefront with signage.

To request to be added to the list, Skin Script Pros must e-mail info@skinscriptrx.com with the information filled out exactly as you would like it to appear on your online listing: Business Name, Business Address, Contact Phone Number, Contact E-mail Address, Business URL.
