

## Honey Brightening Cleanser

### Description

---

Honey Brightening Cleanser helps to brighten the skin, address hyperpigmentation, strengthen the skin barrier, and enhance cellular turnover. It contains Mandelic and Lactic acid, which gently exfoliates the skin and provides antibacterial, hydrating, and brightening benefits. Black BeeOme™ and Arizona mesquite honey help to restore the skin's microflora and support the skin barrier. This lathery cleanser will help to address multiple skin concerns without stripping the skin, to clarify and improve skin tone.

- Brightens
- Improves skin texture
- Restores microbiome
- Protects and strengthens the skin barrier
- Enhances cellular turnover
- Boosts hydration

### Skin Types

---

Normal, oily, combination skin with hyperpigmentation, mild acne

Formulated without nuts, soy or gluten

### Key Ingredients

---

- **L-Mandelic Acid (2.5%)** is a larger molecular weight alpha hydroxy acid with antibacterial properties and is working as an exfoliant, allowing dead skin cells to slough off, making room for regrowth of new skin. Improves wrinkling, roughness, and softens skin.
- **L-Lactic Acid (2.5%)** is an alpha hydroxy acid working as an exfoliant, allowing dead skin cells to slough off and making room for regrowth of new skin. It improves wrinkling and roughness, and it softens the skin.
- **Azeloglicina® (1%) (Potassium Azelaoyl Diglycinate)** is a dynamic tyrosinase inhibitor to help prevent hyperpigmentation and reduce existing dark spots to improve overall skin tone. It offers anti-inflammatory benefits as well as regulates sebum activity to support acneic skin types.
- **Black BeeOme™ (1%) (Honey and Zymomonas Ferment Extract)** restores the skin's natural microflora, which is a complex community that functions together with the immune system to defend against pathogens and maintain skin health. It also reduces sebum production for a matte finish on the skin.
- **Arizona mesquite honey** provides antibacterial, antioxidant support. It is nourishing, moisture binding and provides healing benefits to the skin.
- **Lipochroman™ molecule (INCI Dimethylmethoxy Chromanol)\*** is a stable antioxidant with double the activity to protect skin from free radicals, DNA damage, oxidative stress, and inhibits melanogenesis (lessens pigment). \*Lipochroman™ is a trademark of Lubrizol Advanced Materials, Inc., or its affiliates.

## Tips for Use

- Use once a day to treat hyperpigmentation and reduce breakouts. Adjust frequency if dryness and/or sensitivity occurs.
- Apply to dampened skin with fingertips in circular, massaging pattern, and rinse with a warm washcloth.
- Not designed to be a primary cleanser or a makeup remover. Do not use over the eyes.

## Important Notes

Avoid getting into eyes. Flush completely if contact occurs.  
Always use sunscreen when using this product.

## Formula Composition

Aqua (Water)  
Glycerin  
Cocamidopropyl Hydroxysultaine  
Sodium Hydroxypropylsulfonate Laurylglucoside Crosspolymer  
Sodium Coco-Glucoside Tartrate  
Sodium Cocoamphoacetate  
Lactic Acid (L)  
Mandelic Acid (L)  
Polyacrylate-1 Crosspolymer  
Sodium Cocoyl Isethionate  
Sodium Methyl Cocoyl Taurate  
Gluconolactone  
Lauryl Glucoside  
Coco-Glucoside  
Glyceryl Oleate  
Sodium Hydroxypropylsulfonate Decylglucoside Crosspolymer  
Sodium Cocoyl Glutamate  
Sodium Lauryl Glucose Carboxylate  
Potassium Azeloyl Diglycinate  
Honey (Mel)  
Honey Extract  
Zymomonas Ferment Extract  
Hydrolyzed Jojoba Esters  
Caprylic/Capric Triglyceride  
Dimethylmethoxy Chromanol  
Bisabolol (L-alpha)  
Citrus Sinensis (Orange) Peel Extract  
Dipteryx Odorata Bean Extract  
Melia Azadirachta (Neem) Leaf Extract  
Melia Azadirachta (Neem) Flower Extract  
Curcuma Longa (Turmeric) Root Extract  
Ocimum Basilicum (Basil) Leaf Extract  
Lawsonia Inermis (Henna) Extract  
Hamamelis Virginiana (Witch Hazel) Water  
Sodium Benzoate  
Sodium Gluconate  
Sodium Hydroxide  
Xanthan Gum  
Alcohol  
Citric Acid  
Caramel  
Potassium Sorbate  
Mica
