

Mandelic Brightening Serum

Description

Mandelic Brightening Serum lifts pigmentation, gently exfoliates, and helps to reduce the appearance of pores. This dynamic serum contains BioFense and Dendriclear™ to support the microbiome of the skin, to reduce sensitivity, and enhance barrier function. Niacinamide provides anti-inflammatory support as well as increases cellular energy. Azeloglicina® normalizes sebum and brightens the skin for a more balanced complexion.

- Brightens
- Assists with surface renewal
- Resorts microbiome
- Lessens future breakouts
- Regulates sebum
- Antibacterial support

Skin Types

All skin types
Ideal for combination-oily, acne and hyperpigmentation
Formulated without nuts, soy, gluten or animal derivatives.

Key Ingredients

- **L-Mandelic Acid (5%)** is a larger molecular weight alpha hydroxy acid with antibacterial properties and is working as an exfoliant, allowing dead skin cells to slough off, making room for regrowth of new skin. Improves wrinkling, roughness, and softens skin.
- **Azeloglicina® (3%) (Potassium Azelaoyl Diglycinate)** is a dynamic tyrosinase inhibitor to help prevent hyperpigmentation and reduce existing dark spots to improve overall skin tone. It offers anti-inflammatory benefits as well as regulates sebum activity to support acneic skin types.
- **BioFense (2%) (Lactobacillus Ferment)** is a probiotic to help enhance the skin barrier which in turn provides antimicrobial properties and supports the immune system of the skin. By supporting the skin microbiome, it will help reduce erythema caused by acne or skin sensitivities.
- **Niacinamide (1%)** is Vitamin B3 addresses many skin disorders due to its anti-inflammatory properties. Vitamin B3 addresses cellular respiration, lipid synthesis, inhibiting skin pigmentation and improving epidermal barrier function. Vitamin B3 treats the mitochondria (energy source) of the cell to repair DNA damage from the sun. Vitamin B3 also treats inflammatory acne.
- **Dendriclear™ (.4%) (Glycerin, Water and Polylysine)** reduces activity of destructive bacteria, decreases inflammation, and regulates keratinization to improve skin microbiome; especially for acneic skin types.
- **Synovea® HR (Hexylresorcinol)** clinically proven to be 4x more effective than hydroquinone, is a potent antioxidant and effective skin brightener that works in synergy with vitamin B3 (niacinamide) to provide powerful cellular support.

Tips for Use

- For best results, use daily, once a day.
- Optimal results, use along with the Honey Brightening Cleanser.
- Adjust frequency if dryness and/or sensitivity occurs.
- Do not rinse; let the product stay on the skin.

Important Notes

Avoid getting into eyes. Flush completely if contact occurs.
Always use sunscreen when using this product.

Formula Composition

Aqua (Water)
Hamamelis Virginiana (Witch Hazel) Water
Glycerin
Alcohol
Mandelic Acid (L)
Caprylic/Capric Triglyceride
Dimethicone
Polysorbate 20
Lactobacillus Ferment
Potassium Azeloyl Diglycinate
Niacinamide
Hexylresorcinol
Sodium Hyaluronate (L)
1,2-Hexanediol
Caprylyl Glycol
Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer
Polyacrylate Crosspolymer-6
Cedrus Atlantica (Cedar) Wood Oil
Succinoglycan
Lonicera Caprifolium (Honeysuckle) Flower Extract
Lonicera Japonica (Honeysuckle) Flower Extract
Citrus Aurantium Bergamia (Bergamot) Fruit Oil
Eucalyptus Globulus Leaf Oil
Juniperus Communis (Juniper Berry) Fruit Oil
Cinnamomum Camphora (Camphor) Bark Oil
Lavandula Hybrida (Lavandin) Oil
Citrus Reticulata (Tangerine) Leaf Oil
Cymbopogon Martini (Palmarosa) Oil
Citric Acid
Citrus Aurantium Dulcis (Orange) Peel Oil
Citrus Limon (Lemon) Peel Oil
Tropolone
Polylysine
Tetrasodium EDTA
Sodium Hydroxide
Sodium Gluconate
