

## Beta-Carotene/Papain Renewal Serum

### Description

---

The Beta-Carotene/Papain Renewal Serum offers a mild exfoliation for sensitive skin. It is an excellent exfoliant for pregnancy and delicate skin types because of its gentle ingredients.

- Improves skin barrier integrity by balancing surface lipids
- Exfoliates to minimize acne and/or impacted pores
- Exfoliates to lessen the appearance of visible wrinkles
- Provides anti-inflammatory-like benefits

### Skin Types

---

All skin types

### Key Ingredients

---

- **Beta-Carotene (D)** is a very stable antioxidant and carotenoid. Do not consider beta-carotene to be a “less than” effective ingredient; in addition to vitamin A synthesis for cell protection from lipid peroxidation, beta-carotene has photo-protective properties.
- **X-pressin™ (Water, Papain/Carbomer Copolymer, 1,2 Hexanediol, Caprylyl Glycol, Algin)** (1%) contains Papain, an enzyme derived from papayas. It digests dead skin cells to help accelerate exfoliation leaving the skin softer and smoother. It is an antioxidant as well as an anti-inflammatory.
- **Olivem® (Cetearyl Oliviate and Sorbitan Oliviate)** is a combination of fatty acids that restores and maintains the integrity of the skin barrier.
- **Aloe Barbadosis Leaf Juice** provides pain relieving properties to reduce discomfort associated with acne. It heals, provides hydration and UV absorption protection, and reduces redness.
- **Allantoin** improves moisture retention, soothes, and normalizes the skin, stimulates tissue growth, and provides anti-inflammatory-like benefits.

### Tips for Use

---

- Apply the Beta-Carotene/Papain Renewal Serum to the skin every night after cleansing and/or exfoliating.
- Apply moisturizer over the serum.
- Reduce usage if flaking occurs.

## Important Notes

---

- Avoid getting into eyes. Flush completely if contact occurs.
- Always use sunscreen when using this product.

## Formula Composition

---

Aqua (Water)  
Glycerin  
Caprylic/Capric Triglyceride  
Cetearyl Olivat  
Lonicera Japonica (Honeysuckle) Flower Extract  
Sorbitan Olivat  
Carbomer  
Hamamelis Virginiana (Witch Hazel) Water  
Lonicera Caprifolium (Honeysuckle) Flower Extract  
Citric Acid  
Dimethicone  
Benzyl Alcohol  
O-cymen-5-OL  
Alcohol Denat.  
Alcohol  
Allantoin  
Papain  
Aloe Barbadensis Leaf Juice Powder  
Phytic Acid  
Beta-Carotene (D)  
Rosmarinyl Glucoside  
Caffeyl Glucoside  
Gallyl Glucoside  
1  
2-Hexanediol  
Caprylyl Glycol  
Algin
