

Blueberry Enzyme

Description

Professional Use Only. This enzyme is a powerful antioxidant that brightens the skin with small percentages of glycolic and salicylic acids that digest dead skin cells and soften sebum. The antioxidants within the blueberries are a perfect anti-aging treatment that will create a healthy glow.

Tingle factor: 4

pH: 2.56-2.96

- Exfoliates
- Antioxidant
- Anti-aging
- Refines pores

Skin Types

All skin types except rosacea and sensitive skin

Key Ingredients

- **Blueberry Fruit** are great antioxidants and contain Vitamins C and E to protect skin from the damaging effects of free radicals associated with oxidative stress.
- **Glycolic Acid (1%)** weakens desmosomes, allowing the dead skin cells to dissolve revealing healthier, smoother, and brighter looking skin.
- **Salicylic Acid (1%)** can penetrate the follicle to dissolve sebum and exfoliate the dead skin cells that are built up. For this reason, salicylic acid is better used on oily skin with blackheads and whiteheads. It also lends anti-inflammatory benefits.
- **Gluconic Acid (D)** provides gentle exfoliation, evens skin tone, antioxidant support and promotes electrolyte balance within the skin.

Tips for Use

- Advanced protocol to soften open comedones before extraction:
 - Apply Retinol 2% Scrub directly on impacted pores and steam for 1-2 minutes; do not remove.
 - Then apply the Blueberry Enzyme on top of the scrub and manipulate it into the skin under steam.
 - Remove after 7-10 minutes.
- Avoid contact with eyes, and flush immediately if contact occurs.
- Always use sunscreen after use of this product.

Blueberry Enzyme

Important Notes

Avoid contact with eyes, and flush immediately if contact occurs.

Always use sunscreen after using this product.

Formula Composition

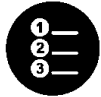

Aqua (Water)
Vaccinium Corymbosum (Blueberry) Fruit
