

Glycolic Cleanser

Description

The Glycolic Cleanser is a foamy cleanser infused with a combination of alpha hydroxy acids. It renews the skin by removing the uppermost layer of dead skin cells to reveal a bright, smooth skin surface.

- Refines and renews skin
- Lessens the appearance of wrinkles
- Brightens and invigorates skin
- Lessens the appearance of acne scars
- Enhances cellular turnover

Skin Types

Acne and aging skin
Avoid use on rosacea or sensitive skin

Key Ingredients

- **Glycolic Acid (17%)** is an alpha hydroxy acid that exfoliates to reduce keratinized skin and promote collagen growth to diminish wrinkles. It promotes resurfacing to refine skin texture.
- **Alpha-Arbutin** is a non-irritating skin brightener. It is an excellent alternative to hydroquinone.
- **Malic Acid** is a supportive alpha hydroxy acid that promotes cellular growth and renewal.
- **Tartaric Acid** an alpha hydroxy acid derived from grapes that encourages exfoliation and cellular renewal. It also softens and removes keratinization on the skin.

Tips for Use

- Let clients know that itching and purging may occur.
- **For normal or combination skin with closed comedones:** Use the Green Tea Citrus Cleanser morning and the Glycolic Cleanser as a second cleanser every day, once a day, for up to 10 days. Once you have achieved significant results on the closed comedones, back down the usage to 2 – 3 times per week.
- **For normal, dry, or aging skin:** Use the Pomegranate Antioxidant Cleanser morning and night and the Glycolic Cleanser 2 – 3 times per week to exfoliate.
- Leave the cleanser on the skin for 30 – 45 seconds for best results. Remove completely with water.
- The Glycolic Cleanser is not designed to be a primary cleanser or a makeup remover and should not be used over the eyes.

Glycolic Cleanser

Important Notes

- Avoid contact with eyes. Flush completely if contact occurs.
- Always use sunscreen when using this product.

Formula Composition

Aqua (Water)
Sodium C14-16 Olefin Sulfonate
Glycolic Acid
Hamamelis Virginiana (Witch Hazel) Water
Sodium Cocoamphoacetate
Propanediol
Sodium Hydroxide
Alpha-Arbutin
Cocamidopropyl Hydroxysultaine
Alcohol
Tartaric Acid (L)
Glycerin
Fragrance/Parfum
Glucuronolactone (D)
Malic Acid (L)
Vanilla Planifolia Fruit Extract
Santalum Austrocaledonicum (Sandalwood) Wood Oil
Citrus Aurantium Dulcis (Orange) Peel Oil
