

30% Glycolic Peel

Description

Professional Use Only. The 30% Glycolic Peel is an excellent cell renewal peel and is a great classic on its own. It is also an excellent booster to any enzyme. The glycolic acid dissolves the desmosomes that hold skin together to allow for an efficient exfoliation.

Tingle factor: 3

pH: 1.38-1.78

- Desquamates skin cells
- Exfoliates
- Softens
- Reduces keratinization
- Treats mild to moderate acne
- Minimizes pore size

Skin Types

Normal, oily, acneic, or dry skin

Key Ingredients

- **Glycolic Acid (30%)** weakens desmosomes, allowing the dead skin cells to dissolve to reveal healthier, smoother, brighter looking skin.
- **Fructooligosaccharides (D-beta)** are naturally occurring carbohydrates derived from cane or beet sugar. This ingredient promotes growth of healthy probiotic bacteria to strengthen skin immunity.
- **Witch Hazel** is a flowering plant; it is a strong antioxidant and astringent that is often used as a natural remedy for psoriasis, eczema, and other skin conditions.

Tips for Use

- Inform the client that visible peeling generally will not occur.
- To make a power facial, mix a half pump of this product to any enzyme for extra exfoliation.

30% Glycolic Peel

Important Notes

Avoid contact with eyes, and flush immediately if contact occurs.

Always use sunscreen after using this product.

Formula Composition

Propylene Glycol

Glycolic Acid
