

# Mint Refining Toner

## Description

This toner contains BioFense, a probiotic to normalize skin flora, reduce redness and minimize pores. This probiotic provides anti-microbial support, helps regulate the immune system and enhance the skin's barrier. DisaPore20 and lemongrass act as natural astringents to tighten pores for smooth, refreshed skin.

- Probiotic for skin flora
- Normalizes the skin's moisture content
- Helps minimize the appearance of pores

## Skin Types

Normal to oily and acneic skin

Teen skin

## Key Ingredients

- **BioFense (Lactobacillus Ferment)** is a probiotic to help enhance the skin's barrier which in turn provides anti-microbial properties and supports the immune system of the skin. By supporting the skin microbiome, it will help reduce erythema caused by acne or skin sensitivities.
- **DisaPore 20 (Lecithin, Lysophosphatidic Acid, Lysolecithin)** reduces size of pores by improved keratinization and through promoting keratinocyte differentiation.
- **D-Ribose** is a sugar that enhances cellular ATP which in turn stimulates fibroblast activity promoting dermal integrity.
- **Cymbopogon Schoenanthus (Lemongrass) Oil** acts as an astringent and antiseptic, and it helps clear up oily skin, helping to minimize the appearance pores.
- **Mentha Piperita (Peppermint Oil)** mild antibacterial, antifungal, and antiviral effects
- **Dunaliella Salina Extract (algae)** is an active substance used to normalize the skin's moisture content and provide suppleness. It is an antioxidant and is anti-inflammatory.
- **Witch Hazel** is a flowering plant; it is a strong antioxidant and astringent that is often used as a natural remedy for psoriasis, eczema, and other skin conditions.

## Tips for Use

- Use morning and evening after cleansing.
- Spritz the toner on the skin or apply it with a cotton round.
- Apply appropriate moisturizer.

## Mint Refining Toner

### Important Notes

---

Avoid contact with eyes. Flush immediately if contact occurs.

### Formula Composition

---

Aqua (Water)  
Hamamelis Virginiana (Witch Hazel) Water  
Alcohol  
Glycerin  
Polyglyceryl-4 Caprate  
Gluconolactone  
Lactobacillus Ferment  
Sodium Benzoate  
Ribose (D)  
Citric Acid  
Dunaliella Salina Extract  
Mentha Piperita (Peppermint) Oil  
Lecithin  
Lysophosphatidic Acid  
Lysolecithin  
Cymbopogon Schoenanthus (Lemongrass) Oil  
Sodium Hydroxide
