

Passionfruit Enzyme

Description

Professional Use Only. The Passionfruit enzyme is meant to increase blood circulation and firm the skin. Passionfruit is a fruit-based enzyme, as well as a great antioxidant to give the skin a healthy glow. Kollaren® peptide increases resiliency and elasticity in the skin by supporting the dermal tissue strength provided by collagen types I and III.

Skin Types

Skin in need of firming

Because this enzyme creates dermal warmth, it is not recommended for rosacea, couperose, sensitive skin, clients with melasma, or Fitzpatrick's 4 – 6.

Key Ingredients

- **Passiflora Edulis (Passionfruit) Fruit** is rich in carotenoids, flavonoids (antioxidants) that protects the cells from free radical damage.
- **Kollaren® (Water, Urea, Glucose and Guanidine HCL, and Tripeptide-1)** is a biomimetic peptide that encourages tissue renewal through dermal warming that increases the firmness of the skin by activating Extracellular Matrix (ECM) protein synthesis which includes, collagen and elastin.
- **Levisticum Officinale (Loveage) Oil** supports the Kollaren® peptide by increasing the potential of epidermal growth factors to support the growth of human keratinocytes.
- **Morinda Citrifolia (Noni) Fruit Powder** is an antioxidant rich in essential fatty acids and is also anti-inflammatory.
- **Ficin** is an enzyme derived from figs; digests dead skin cells.
- **Beta-Carotene (D)** provitamin A; antioxidant, photoprotective, stable precursor to vitamin A.
- **Gluconolactone** a polyhydroxy acid provides gentle exfoliation.

Tips for Use

- You can use this enzyme with your client on a weekly basis.
- It provides mild exfoliation; the client will not peel.
- The skin gets red and warm and stays that way for several hours.
- Do not use this enzyme with steam on first time clients.
- Advanced protocol:
 - Before applying the enzyme, use the 30% Glycolic Peel to exfoliate the upper layers of the stratum corneum.
 - Neutralize and remove the peel.
 - Apply the enzyme to ensure it penetrates deeper into the skin for added intensity.
