

Peptide Eye Serum

Description

The Peptide Eye Serum opens the eye zone for a refreshed, youthful appearance. It brightens the appearance of discolorations, reduces the appearance of wrinkles, stimulates circulation, and improves tissue strength while encouraging healthy cellular skin functions.

- Alleviates dark under eye circles
- Encourages proper moisture levels
- Plumps eye tissue
- Improves circulation
- Soothes and calms
- Tightens and firms
- Lessens the appearance of wrinkles

Skin Types

Skin with dark under eye circles and puffiness

Key Ingredients

- **Eyeliss™ (Palmitoyl Tetrapeptide-7, Dipeptide-2, Hesperidin Methyl Chalcone)** It helps prevent and reduce puffiness under the eyes.
- **Haloxy™ (Chrysin, Palmitoyl Oligopeptide, Palmitoyl Tetrapeptide 3)** It reinforces firmness and tones up the eye area. It also facilitates the elimination of blood pigments responsible for dark circle coloration and inflammation.
- **Argireline® (Acetyl Hexapeptide-8)** is a powerful anti-wrinkle hexapeptide to relax facial tension, leading to the reduction of facial lines and wrinkles.
- **L Ascorbic Acid** improves skin elasticity, decreases wrinkles by stimulating collagen synthesis, and suppresses cutaneous pigmentation.
- **Caffeine** stimulates and promotes healthy detoxification.
- **Spin Trap (Phenyl t-Butylnitron)** entraps reactive oxygen species to restore proper chemical structure and spin to destructive molecules. It limits lipid peroxidation and free radical damage.

Tips for Use

- Use morning and evening regularly for up to 50% improvement in dark circles.
- To apply, pat lightly on the eye area and allow it to penetrate the skin.
- Keep using the product, or dark circles will reappear.

Peptide Eye Serum

Formula Composition

Aqua (Water)
Hamamelis Virginiana (Witch Hazel) Water
Ascorbic Acid (L)
Glycerin
Alcohol
Squalane
Polysorbate 20
Caffeine
PPG-3 Benzyl Ether Myristate
Xanthan Gum
Butylene Glycol
Phenoxyethanol
Magnesium Ascorbyl Phosphate
Caprylyl Glycol
Steareth-20
Hesperidin Methyl Chalcone
Citrus Limon (Lemon) Peel Oil
Phytic Acid
Carbomer
Palmitoyl Tetrapeptide-7
Tartaric Acid (L)
Chrysin
Citrus Aurantium Dulcis (Orange) Flower Oil
Acetyl Tributyl Citrate
Glycosaminoglycans
Palmitoyl Tripeptide-1
N-Hydroxysuccinimide
Dipeptide-2
Acetyl Hexapeptide-8
Glucose (D)
Astaxanthin
Carrageenan
Phenyl t-Butylnitrone (Spin Trap)
Citric Acid
Sodium Hydroxide
