

Retinol 2% Exfoliating Scrub/Mask

Description

The Retinol 2% Exfoliating Scrub/Mask exfoliates while brightening to promote a clear, healthy skin tone.

- Resurfaces and refines the skin
- Lessens visible aging
- Brightens skin
- Provides chemical and physical exfoliation
- Enhances cellular turnover
- Assists in skin rejuvenation

Skin Types

All skin types
Acneic and aging skin

Key Ingredients

- **Retinol (2%)** reduces cellular buildup, assist in prevention of microcomedones, resurfaces and smoothes the skin, and stimulates collagen production to improve skin quality and youthfulness.
- **Kojic Acid (2%)** lightens skin discolorations, slows the production of melanin, and assists in maintaining desired skin coloration after aggressive depigmentation treatments.
- **Jojoba Beads** provide the physical exfoliation component of the product. They gently buff away dead surface debris and leave behind jojoba esters, which are a moisture retaining component.
- **Malic Acid (L)** enhances desquamation of the stratum corneum and improves the appearance of the skin.
- **Zanthoxylum Americanum (Prickly Ash) Bark Extract** encourages healthy circulation and provides gentle stimulant properties to promote healthy oxygenation. It is also anti-inflammatory.

Tips for Use

- For most skin types, use this product with the Glycolic Cleanser 2 – 3 times per week. The Glycolic Cleanser breaks up the dead, keratinized skin, and the Retinol 2% Exfoliating Scrub/Mask polishes off the dead skin. The retinol also starts desquamating the follicle lining so impactions can purge.
- For sensitive skin or rosacea, use this product with the Green Tea Citrus Cleanser 2 – 3 times per week.
- For use as a mask, apply a thin layer and allow the actives to penetrate the skin for 5 – 10 minutes.
- Add a minimal amount of water and rub gently in circular motions—no rough scrubbing. Then remove completely with water.

Retinol 2% Exfoliating Scrub/Mask

Important Notes

- Avoid getting into eyes. Flush completely if contact occurs.
- Always use sunscreen when using this product.

Formula Composition

Aqua (Water)
Jojoba Esters (Beads)
Glycerin
Hamamelis Virginiana (Witch Hazel) Water
Behenyl Alcohol
Polysorbate 20
Caprylic/Capric Triglyceride
Retinol
Kojic Acid
Butylene Glycol
Alcohol
Malic Acid (L)
Glyceryl Stearate SE
Dicaprylyl Ether
Phenoxyethanol
Xanthan Gum
Polyacrylate Crosspolymer-6
Sucrose Stearate
Benzyl Alcohol
Caprylyl Glycol
Olea Europaea (Olive) Leaf Extract
Zanthoxylum Americanum (Prickly Ash) Bark Extract
Caprylhydroxamic Acid
Sorbic Acid
Citrus Limon (Lemon) Peel Oil
Citrus Aurantium Dulcis (Orange) Flower Oil
